Professor H. M. Novik.

IN the death of the late Prof. P. M. Novik, on December 8th, last, the Maryland Agricultural College felt keenly the loss of an honored member of their staff, and the student body a beloved teacher and enthusiastic friend.

Prof. Novik was a native of Norway and was 33 years of age. He received his education in the Universities of Norway, Sweden, Germany and England. He came to us from Cornell University in August, 1906, and from that time until the date of his untimely death he was instructor in Horticulture at this College. Prof. Novik had endeared himself to the hearts of all with whom his life came in contact,—whose firm friendship and warm love he won by the nobility of his nature.
